## NYSIM back on track post-Sandy!

In February 2013, NYSIM demonstrated an impressive comeback in the number of programs and the number of learners. The number of programs was 59 and the number of learners was 1,034. Continuing at this rate, NYSIM will close the calendar year with over 11,000 learner visits compared to last calendar year's 10,000 learner visits. We would like to thank our community for these successes. We are looking forward to collaborating with more members of our community and beyond to on many more programs to supplement and continue this amazing growth!
