

## News at NYSIM

### NYSIM Program Highlight— First Night on Call

NYSIM hosted a 4 hour immersive simulation on Patient Safety and Quality to orient the Incoming Interns to the NYULH culture of being a High Reliability Organization. The program included Group OSCE's, a Patient Safety Room and Case Based Discussions. In June 2017 we hosted 156 incoming interns from 7 residency programs and this year we will host 205 incoming interns from 17 residency programs.

The oral abstract presented at SGIM, Simulated First Night-onCall (FNOC): Establishing Community and a Culture of Patient Safety for Incoming Interns, presented at the SGIM 2018 annual meeting, has been selected as the Best Oral Presentation in Quality Improvement and Patient Safety.

Dr. Ian Fagan

### Promotions at NYSIM

Since opening in 2011, NYSIM has experienced immense growth in both depth and volume of educational programs. We understand that this growth is due to your dedication and support as well as the support of our staff. Moving forward we want to continue and increase our support of the educational programs at NYSIM. We are indebted to the hard work and dedication of our staff. We recognize the importance of being able to professionally grow our staff within our organization.

Effective February 2018 we are pleased to be able to announce two promotions within our NYSIM team:

#### Alex Mack - Program Supervisor

Alex Mack has been with our team for 2.5 years. She has had the roles of Simulation Operations Specialist and Senior Operations Specialist. With the support of the Standardized Patient (SP) Program team and the guidance of Dr. Zabar, Alex has transformed the standardized patient program processes at NYSIM. We are fortunate to be able to promote her to a Program Supervisor Role. In this new role Alex will continue to support programs but will also supervise NYSIM standardized patient processes and programmatic changes including technology needs; assist with NYSIM website design; and recruit, train and supervise staff within the SP program.

Alex Mack

#### Crysandy Marte - Senior Simulation Operations Specialist

Senior Simulation Operations Specialist Crysandy Marte has been with our team in the role of Simulation Operations Specialist for 1.5 years. Crysandy came to NYSIM with experience from the University of Vermont Clinical Simulation Lab. We are pleased to be able to promote Crysandy to a Senior Simulation Operations Specialist position. Crysandy will continue to support the day to day operations of simulation programs but will also support Sarla Santos, the Assistant Director of Operations, in coordinating and troubleshooting scheduling requests; coordinate the intake/design meetings; assist in the development and implementation of new standard operating procedures and assist with maintaining and enhancing NYSIM's vendor relationships.

Crysandy Marte
